

## Senior Frontend developer Arseni Sh.

Front-end Developer with a robust skill set, boasting six years of commercial development experience. Proficient in a wide range of technologies, including React, Redux, Next.js, Effector, TypeScript, and Jest. Committed to producing high-quality user interfaces and offering assistance and guidance to aspiring developers.

### EXPERIENCE

#### Perfsol

Front End Developer

March 2021 - Present

**Tech Stack:** React, Next.js

I worked on the fintech project as a part of a dedicated team from the Perfsol side. I took the project almost from scratch and released and successfully made a couple of releases. Currently, we build new features which help the product to grow faster.

Responsibilities:

- Leading team of 3 front-end developers. Communicating with the client daily. Reporting to the local delivery manager
- Code review and mentorship
- Setup CI

Also I started and developed one more fintech project. I set up front-end, created architecture of the project and built new features.

- Leading team of 2 front-end developers. Daily communication with the clients. Reporting to the local delivery manager
- Code review and mentorship
- Setup CI
- Unit tests covering

#### Teladoc Health

Front End Developer

October 2019 - Present (4 years)

**Tech Stack:** React

I am working on a telemedicine project as part of a large team. I joined the team long after the project started. All the time, we are working on creating new features and improving functionality. The project is quite big and it's HIPAA compliant.

Responsibilities:

- Front-end development
- Code review and mentorship
- Participation in creating JS libreris for local usage.
